

Supplementary privacy note on Covid-19 for Patients

This notice describes how we may use your information to protect you and others during the Covid-19 outbreak. It supplements our main Privacy Notice which is available on our practice website; <https://www.abercrombyfp.nhs.uk/>

The health and social care system is facing significant pressures due to the Covid-19 outbreak. Health and care information is essential to deliver care to individuals, to support health and social care services and to protect public health. Information will also be vital in researching, monitoring, tracking and managing the outbreak. In the current emergency it has become even more important to share health and care information across relevant organisations.

Existing law which allows confidential patient information to be used and shared appropriately and lawfully in a public health emergency is being used during this outbreak. Using this law the Secretary of State has required NHS Digital; NHS England and Improvement; Arms Length Bodies (such as Public Health England); local authorities; health organisations and GPs to share confidential patient information to respond to the Covid-19 outbreak. Any information used or shared during the Covid-19 outbreak will be limited to the period of the outbreak unless there is another legal basis to use the data. Further information is available on gov.uk [here](#) and some FAQs on this law are available [here](#).

During this period of emergency, opt-outs will not generally apply to the data used to support the Covid-19 outbreak, due to the public interest in sharing information. This includes [National Data Opt-outs](#). However in relation to the Summary Care Record, existing choices will be respected. Where data is used and shared under these laws your right to have personal data erased will also not apply. It may also take us longer to respond to Subject Access requests, Freedom of Information requests and new opt-out requests whilst we focus our efforts on responding to the outbreak.

In order to look after your health and care needs we may share your confidential patient information including health and care records with clinical and non clinical staff in other health and care providers, for example neighbouring GP practices, hospitals and NHS 111. We may also use the details we have to send public health messages to you, either by phone, text or email.

During this period of emergency we may offer you a consultation via telephone or video- conferencing. By accepting the invitation and entering the consultation you are consenting to this. Your personal/confidential patient information will be safeguarded in the same way it would with any other consultation.

We will also be required to share personal/confidential patient information with health and care organisations and other bodies engaged in disease surveillance for the purposes of protecting public health, providing healthcare services to the public and monitoring.
